- Design:** Figma, Photoshop, Adobe XD
- Testing:** Vitest, React Testing Library
- Other:** REST API, WebSocket, Basic Backend, Responsive Design

LANGUAGES

- Armenian - Native
- English - Intermediate
- Russian - Upper-Intermediate

EXPERIENCE

Armspider – Frontend Developer

2021 - Present

- Built full-featured web apps using React, Next.js, and TypeScript
- Wrote modular components, integrated APIs, and used state management
- Optimize performance (Lighthouse scores 90+) and SEO
- Applied testing tools and code quality tools
- Deployed and maintained projects using CI/CD

Hook – Frontend Developer

2017 - 2020

- Developed responsive UI with React, SASS, jQuery, and Material-UI
- Built components, followed Git-based workflow
- Collaborated with designers to convert mockups into high-quality frontends

Armspider – SEO & Junior Web Developer

2015 – 2017

- Created and optimized websites using HTML5, CSS3, Bootstrap 3, and WordPress
- Improved client organic traffic via SEO strategies
- Created marketing assets with Adobe Suite (Photoshop/Illustrator)

Tuga Company – SEO Specialist

2014 - 2015

- Planned and executed SEO strategies for client websites
- Analyzed traffic and keyword rankings using SEO tools

Orange Armenia – Cashier

2009 - 2014

- Delivered excellent customer service in a high-traffic telecom retail environment
- Worked with internal billing and CRM software
- Collaborated closely with both customers and internal departments
- Earned multiple service and sales performance certifications

PROJECTS

Motorcycle Specifications [specbike.com](#)

Tech Stack: Next.js 14, React, Prisma, SWR, NextAuth, React Table, React Hook Form

- Developed a database-driven site with Prisma ORM for motorcycle specs/comparisons.
- Auth system with NextAuth.
- Server-side data scraping using Cheerio.
- Used TanStack Table for advanced filtering/sorting.
- Shareable pages and responsive design.

Global Cost of Living Platform [nakedcost.com](#)

Tech Stack: Next.js, React, Sequelize, MySQL, Cheerio, Next-Auth

- Real-time currency conversion (USD, EUR, RUB, etc.) with instant recalculations across all data.
- Admin dashboard for content updates (Next.js API routes + Next-Auth).
- Infinite scroll, custom search, authentication.
- Server-side scraping and SEO optimization.

Cost of Living Platform [countriescost.com](#)

Tech Stack: Next.js 13, Sequelize, MySQL, SWR, React Simple Maps

- Country-specific cost of living with map visualization.
- React Table, SEO with Next Sitemap, localization.
- Dynamic tooltips and data visualizations.

Business Consulting Platform [vecankyun.com](#)

Tech Stack: MERN Stack (MongoDB, Express, React, Node.js, Redux)

- Implemented i18next for seamless Armenian/Russian toggling
- User authentication and admin panel
- SEO optimization
- Responsive UI with Material-UI.
- Automated email confirmations via Nodemailer

Pets Info Platform [petsboon.com](#)

Tech Stack: Next.js 13, Sequelize, MySQL, SWR, NextAuth

- REST API with Sequelize ORM for MySQL
- Secure auth (Next-Auth)
- Optimized image handling

Express Courier Service [exco.am](#)

Tech Stack: React 16, Material UI, Formik, Yup

- Calculated import/export shipping costs with form validation.

Course Projects (Rolling Scopes School)

Created projects, reviewed code, migrated JavaScript to TypeScript, actively communicated with the team, and submitted multiple pull requests as part of the Rolling Scopes School coursework.

- Christmas Shop - HTML, CSS, JS (vanilla): full interactive shop
- Hangman - HTML, CSS, JS: simple game logic
- Fun Chat - Real-time messaging app using WebSocket protocol
- Async Race - JavaScript car animation game with DOM manipulation
- E-Commerce App (team project) - React 19, TypeScript, Tailwind CSS, Zustand, React Hook Form, Commercetools API
